

**Job Title:** Jr. Production Technician

**Location:** Erlanger, KY

## Position Summary

We are seeking a bright and motivated individual to work in our Erlanger, KY facility as a Jr. Production Technician. This individual will support the manufacturing of our state-of-the-art products.

## Job Description

The Jr. Production Technician will conduct electro-mechanical assembly on a range of water, air and surface treatment products that use breakthrough UV-C LED technology, sold to a broad range of global customers. The Jr. Production Technician will have initiative to learn modern product assembly techniques, and will be required to collaborate with other production employees.

## Shift

1<sup>st</sup> shift, Mon-Thurs (8:00 AM – 5:00 PM), Fri (8:00 AM – 2:30 PM)

2<sup>nd</sup> shift, Mon-Thurs (12:00 PM – 9:00 PM), Fri (12:00 PM – 6:30 PM)

## Hourly Rate

\$16 - \$18 per hour (commensurate with experience)

## Major Duties and Responsibilities

- Closely follow all standard operating procedures, particularly for electro-mechanical product assembly, while ensuring form, fit and function of parts during assembly process
- Strict adherence and enforcement of health and safety procedures and guidelines
- Follow product quality standards and controls to meet quality objectives; identify any Non-Conformance of parts and follow Non-Conformance guidelines
- Support Engineering and Sales teams to meet customer delivery requirements

## The ideal candidate will have

- Comfortable working in electronic/mechanical product assembly and manufacturing processes

- High School Diploma
  - Ability to learn mechanical skills to assemble/disassemble complex electro-mechanical systems from scratch.
  - Ability to lift up to 25 pounds
  - Task management & organization skills
  - Interpersonal and communication skills
- 
- Ability to lead by example through a strong work ethic and relentless drive for learning

AquiSense Technologies is the global leader in UV-C LED systems design and manufacture. We work with leading LED manufacturers to evaluate their devices and then design efficient disinfection products. Using a combination of patented technology and in-depth know-how, AquiSense integrates LED devices into products that solve real world problems in water, air, and surface applications. Visit us at:
