

**Job Title:** Quality Control and Inventory Technician

**Location:** Erlanger, KY

### Position Summary

We are seeking a bright and motivated individual to work in our Erlanger, KY facility as a Quality Control Technician and Inventory Technician. This individual will be responsible for maintaining inventory and the quality of our state-of-the-art products.

### Job Description

The Quality Control and Inventory Technician is responsible for testing incoming and outgoing materials to ensure they conform to all applicable laws and company standards. The Quality Control and Inventory Technician test products across the three stages of production (before, in-process, and final) to ensure quality levels are met and ensures that inventory is received and distributed correctly to production.

### Major Duties and Responsibilities

- Receive inventory from suppliers
- Perform incoming inspection
- Maintain inventory in the correct locations
- Pull and kit inventory according to work orders
- Maintain inspection reports
- Ensure compliance to internal company standards and customer specifications/requirements
- Maintain calibration and records of quality control equipment
- Perform inspections across all stages of production
- Prepare and maintain test data for review
- Identify areas for quality control improvement and implement new methods accordingly
- Communicate quality or compliance concerns with appropriate urgency
- Pay is hourly-based and commensurate with experience

### The ideal candidate will have

- Associates degree in Quality Assurance Management
- Solid understanding of test equipment
- 2-5 years of inventory control and quality control experience
- Strong working knowledge of various mathematical concepts including fractions, ratios, and proportions
- Ability to lift and/or move up to 50 pounds occasionally
- Specific vision abilities required include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus

- Demonstrated ability to work independently with minimal supervision
- Excellent organizational skills
- Ability to lead by example through a strong work ethic and relentless drive for excellence

AquiSense Technologies is the global leader in UV-C LED systems design and manufacture. We work with leading LED manufacturers to evaluate their devices and then design efficient disinfection products.
